

OUR SCHOOL AT A GLANCE...

- We are an Education centre with two classes per grade with an integrated after-school program and kindergarten located in the centre of Stuttgart.
- School founded in 2012, officially recognized as a state-approved alternative school in 2015.
- Established by Klett.
- Appreciative and development-oriented accompaniment of the children from early childhood to the end of primary school.
- Intensive basic education in mathematics, German and English with extracurricular activities.
- Interdisciplinary theme days – and research units in the following subjects – nature, technology, art and music.
- The Galileo Bildungshaus is a cosmopolitan education centre. We integrate the realities of everyday life.
- Intensive English lessons and bilingual learning support. We teach the new language in authentic and everyday situations.
- We reinforce individual promotion of pupils and social learning and appropriate culture of conflict on a daily basis. Ethics is also a subject at our primary school.
- Developing potential and taking pleasure in efforts and achievements.
- Rhythmic all - day concept with extracurricular activities.
- Close cooperation between primary school and kindergarten (through our research programme and multi-professional team).
- We offer family-friendly supervision times and reliable school-holiday care.
- Sliding scale school fees and scholarships for low-income families.
- Kindergarten and school capacities are overbooked, but a waiting list is offered.
- Since June 2018 we are a teacher training school for State seminars for didactics and Teacher Education (Primary school Nürtingen: traineeship possible)
- Since October 12th, 2018 the Galileo primary school has been recognized by the German authorities as a MINT-friendly school.
